NetLogix is the leader in the design, installation, and management of applications rich, multi-use municipal networks. Our extensive experience assures our clients that they are in good hands when it comes to wireless and video solutions.

Our program includes **FREE EQUIPMENT, DESIGN & INSTALLATION***. We only use industry-leading, branded equipment – no freeware/shareware substitutes. Best of all – you own the network!

Why are we doing this? It's simple ... we want to be your vendor partner of choice for your wireless and video surveillance needs. And we're willing to invest in order to prove it.

What's required? Simply sign up for NetLogix Managed Services.

** Does not include any Internet access or bucket truck resources. Two year term required.*
