Necessary Background

- General Java Programming
- Databases, including SQL
- JDBC
- General J2EE Principles
- Servlets
- JSP
- EJB pre-3.0

More Background

- JNDI
- Java Annotations
- Basic JavaBeans (not EJBs)
- Java Generics
- Java Persistence
- Java Properties
- XML

And More Background

- Web Services
- Jar
- Ant
- Web Services
- To some extent, many more topics

Question: Are we ready to jump right into EJB 3.0?

Course Priorities

1. As much as possible, provide necessary background for EJB
2. Provide conceptual framework of EJB and how it fits into J2EE platform
3. Look at EJB 3.0 in more detail
4. Suggest further topics for investigation

Instructor: Joyce Deeb

- BS, MS in Computer Science and Engineering
