

80

The background of the slide is a complex network diagram. It features a dense web of nodes and connections. Most nodes are small, light blue spheres, while larger, more prominent nodes are white spheres with a metallic rim. A single node in the lower-middle section is highlighted in a vibrant red color. The connections are thin, dark lines forming a complex, interconnected mesh.

A conceptual image of a globe with a network of glowing lines and nodes, symbolizing the Internet of Everything. The globe is shown from a perspective that curves away into the distance, with a bright sun or light source on the right side, creating a lens flare effect. The network lines are thin and white, connecting various points across the globe. The background is a deep blue sky.

**You drive the
Internet of Everything**
