

*The power to be
always ready.* Activate on-the-fly and pay
as you go. Get it on the Now Network.™

Whether a natural disaster or man-made emergency, being ready to go on a moment's notice can save lives, millions of dollars and increase the ability to respond to the public's needs.

With the Emergency Response Team (ERT) Go-Kit™ from Sprint, public safety agencies can keep a cache of devices and Mobile Broadband Cards on-hand for emergencies, preparedness drills or pre-planned events. Simply purchase phones, aircards and accessories and pay for service only when you use the equipment.

Get your own Go-Kit™

Customize:

- > Choose from a variety of devices, Mobile Broadband Cards and accessories
- > Specify the quantity and configuration of your rugged, shatter-resistant Stormcase™ cargo containers

Manage:

- > Reserve your phone and Nextel Direct Connect numbers with a \$75 per unit per year charge so you can publish the phone numbers in your Emergency Planning Documents
- > Receive your devices inventoried, packaged, programmed, labeled and fully charged
- > Manage your devices with our label-making capabilities (included with your kit) and the easy-to-follow directions in our ERT Go-Kit™ Handbook

Activate:

- > Activate only the services you need — select from cellular Nextel Direct Connect and/or data services
- > Call the ERT 24x7/365 Support Hotline at 888-639-0020 (for GETS users 254-295-2220) to activate

Priority Access

When you activate units, your agency can get access to Wireless Priority Services for select devices if you meet federal eligibility standards, giving your Nextel Direct Connect and wireless calls priority queuing into the Nextel National Network during times of network congestion.

To learn more about ERT Go-Kits™, contact your Account Representative, call the 24x7 ERT Support Hotline 888-639-0020 (for GETS Users 254-295-2220) or request information by email at ERTRequests@Sprint.com.
