Powerful Communications for Public Safety

RAPID, INTEROPERABLE COMMUNICATIONS FOR EMERGENCIES, DRILLS, AND FIELD EXERCISES.

In light of recent natural and man-made disasters, strategic and well tested emergency response plans are more important than ever. The safety and security of millions depends on the ability of local, state and federal public safety workers to communicate across agencies, jurisdictions and regions in some of the most hazardous environments.

Rapid Deployment Solutions (RDS) from Sprint's Emergency Response Team provide critical communication and connectivity virtually anywhere, at anytime to government agencies, the military and the first responder community. Extend your agency communication infrastructure beyond brick and mortar environments with feature-rich applications such as Direct Connect, presence, location, messaging, Voice and Video over IP.

Sprint offers equipment, infrastructure and personnel that are second-to-none, including the following:

> **Services.** Take advantage of Sprint's proven, reliable program design, consulting and on-site technical support.

> **Training.** Ensure that you are prepared with ERT Field Training Exercise Scenarios, Planning and Service and Field Operations.

> **Equipment.** Get fast access to a variety of devices for emergencies and pre-planned events.

> **Infrastructure.** Rapidly augment communications with mobile cellular solutions:
>   – Satellite Cell-On-Light Truck (SatCOLT)
>   – Cell-On-Wheels (COW)
>   – Bi-Directional Amplifier (BDA)

> **Products and Services.** Access specialized products, such as:
>   – **RDS Go-Kit™.** Have a cache of phones and Mobile Broadband Cards on standby that can be activated quickly for emergencies, drills or exercises.
>   – **Wireless Priority Services (WPS).** Get through during times of network congestion.
>   – **Nextel Direct Connect.** Get the power of instant communication with the nation's largest walkie-talkie network.
>   – **Vehicle Integration.** Install reliable communications and GPS-based applications in your vehicles.

To learn more about how RDS from Sprint's Emergency Response Team can augment and improve your agency's critical communications for continuity of operations, contact your account representative, call the 24x7 RDS Support Hotline 888-639-0020. (GETS Users can call 254-292-2220) or email EmergencyResponseTeam@Sprint.com.
